

Department on Disability Services (DDS) – JMO

Laura L. Nuss, Director
1125 15th, Street, N.W.
Washington, DC 20005
(202) 730-1700

<http://www.dds.dc.gov/>

Central Purpose

- The Mission of the Department on Disability Services is to provide innovative, high quality services that support people with disabilities to lead meaningful and productive lives as vital members of their families, schools, workplaces and communities in every neighborhood in the District of Columbia.
- The Department on Disability Services (DDS) is composed of two major Administrations that oversee and coordinate services for residents with disabilities through a network of private and non-profit providers. DDS also includes the State Office of Disability Administration and the District of Columbia Social Security Disability Determination division.
- DDS/ Developmental Disabilities Administration currently serves 2,280 people with intellectual and developmental disabilities of which 516 are *Evans* class members.
- *Evans v Gray* class action lawsuit- DDS has been found by the court to be in compliance with 55 of 70 outcome criteria which includes five of the nine goal areas under the 2010 Exit Plan. Of the remaining outcome criteria only 8 are in dispute between the parties.
- DDS/ Rehabilitation Services Administration currently serves 5,589 individuals of which 1,230 are students in transition.

Key Facts

- DDS has had delegated authority for Personnel and Contracts and Procurement since 2006.
- DDS receives significant funding from sources other than local funds.
- The Disability Determination Division is 100% federally funded through the Social Security Administration.
- The Rehabilitation Services Administration is approximately 80% funded through the federal Department of Education.
- Direct services for people supported by DDA are funded through the Medicaid Home and Community Based Waiver for IDD or the ICF/IDD Medicaid State Plan with a 70% federal match. Only 1% of direct services are 100% locally funded.
- DDA Room and Board costs and the IDD HCBS waiver local match make up 86% of the DDA non PS budget.
- DDS/RSA staff are regularly on site at a variety of locations around the district including four (4) One-Stop centers, 84 schools and 27 other locations including community based organizations and other DC agencies.
- DDS/Disability Determination Division processes approximately 15,000 Social Security Disability Determinations per year for residents of DC and surrounding jurisdictions.
- DDS has an extremely robust training program and provided a total of 190 in-house training opportunities in FY14 including 23 opportunities for DDS staff in conjunction with George Washington University.
- DDS is a highly data driven organization and tracks a total of 166 performance metrics on a monthly basis via management team meetings with the Director to review performance data and initiatives.
- DDS currently has 148 human care agreements in place with service provider organizations that are integral to the delivery of both DDA and RSA services.

Goals/Performance Measures

- To continue to advance Person-Centered practices, DDA will select and work with a minimum of four provider agencies to become Person Centered Organizations. In FY2015, DDA in conjunction with Support Development Associates and the selected provider agencies will successfully integrate person-centered thinking skills with specific best practices in each provider agency's management and quality improvement systems. The selected provider agencies will commit to having senior management, front-line supervisors, and board members receive training and participate in activities directed at reviewing current practice and changing policies, procedures and practices as identified.
- Increase the number of individuals who achieve positive quality of life outcomes in the areas of health, work, relationships and community inclusion (Age-Friendly DC Goal: Domains 4, 5, 6, 8). Data measured through participation in the National Core Indicators (NCI) Project to compare DDA results to FY 14 and national data.
- Consistent with the goals of Employment First and the CMS Transition Plan for HCBS waiver programs, continue the development and implementation of a comprehensive plan to promote the least restricted, most integrated day, vocational and employment services (Age-Friendly DC Goal: Domains 4, 5, 6, 8). DDA will also implement new quality improvement initiatives to come into compliance with new CMS rules for HCBS services to ensure that people supported by DDA funded services receive services that are: tailored to their personal, assessed needs and interests; result in achievement of personal outcomes; involve meaningful work and/or activities that teach or maintain important employment related skills; and, are consistent with the new CMS definition of community-based. These initiatives will include: the provision of technical assistance and resources to day habilitation and employment readiness providers to improve and enhance adult and vocational education and adaptive skills and positive behavioral support training; modifications to the DC IDD HCBS rules to enforce increased programming requirements; and, additional training of DDA and provider personnel to improve the effectiveness of monitoring of these services. The number of people who have increased opportunities for community integration through day, vocational and employment supports will increase by at least 25% (from 375 to 468).
- Develop and implement strategies to recruit new providers to meet specific needs in the areas of clinical services, dual diagnosis, and elders (Age-Friendly DC Goal: Domain 8). In FY2015, DDS/DDA will: work with the Department of Behavioral Health (DBH) to support the training of up to three core service agencies to increase mental health professionals' skills in working with people with dual diagnoses; collaborate with the Child and Family Services Agency (CFSA) to recruit and support provider(s) to effectively support individuals who age out of CFSA into the DDA service delivery system; collaborate with the Office of Aging and community senior centers on expanding their services to elders with IDD; establish an internship program with local universities to increase the availability of psychologists with experience in behavioral health treatment modalities for persons with dual diagnoses; and continue to recruit national providers with expertise in supporting people with significant behavioral health needs.
- Continue the implementation of education and preventative activities on abuse and neglect (Age-Friendly DC Goal: Domain 10). The Agency will conduct regular training with service provider agency staff. A portion of the curriculum will be dedicated to "Prevention Activities: Abuse and Neglect," which will include, but will not be limited to a requirement for the provider agency to conduct annual training for all of its staff in the prevention of abuse and neglect; and the development of a template that identifies key areas, The Agency will host a "District of Columbia Government Abuse Investigator" roundtable that will include attendees from the provider agency community, other government agencies and law enforcement. The Agency will also continue to convene an internal committee to discuss incident trends that will include but not be limited to an analysis of provider agency data related to a noticeable high or lower number of abuse and neglect incidents for people. The results of this analysis of data could suggest additional training or possible sanctions.
- Implement the DDS/DDA Centers for Medicare and Medicaid Services (CMS) Corrective Action Plan and exit CMS oversight for the DDA HCBS waiver program.

In FY2014, DDS/DDA successfully completed the implementation of its performance and quality management strategy for the purposes of oversight and assessment of the District’s Developmental Disabilities service system, and achieved compliance with the Evans court orders related to the development and implementation of a quality assurance system. In FY2015, DDS will, consistent with the Medicaid Waiver Program approved application, achieve and maintain at least 86% compliance with all CMS quality measures. DDS/DDA will measure compliance and develop plans for remediation when compliance falls below the acceptable level.

- Continue to improve performance in the efficiency of the Restrictive Control Review Committee (RCRC) review process to ensure adherence to policy and procedures that will increase the number of approved behavioral support plans (BSPs) with restrictive controls. Using the performance data collected in FY 2014, DDA will recommend new performance standards to DHCF for continued participation in the HCBS waiver Medicaid program for Behavior Support providers. The Agency will provide technical assistance to individual clinicians on a case-by-case basis following a pre-review of all BSPs submitted for review to the RCRC. The completion date is December 2014.

Rehabilitation Services Administration

- Work with the Workforce Investment Council (“WIC”) to implement changes required under the Workforce Innovation and Opportunity Act (“WIOA”), which was signed into law in July, 2014. Most significantly, coordinate with the WIC and the Department of Employment Services (“DOES”) to expand the availability of vocational rehabilitation (“VR”) services at the American Jobs Centers. Consistent with RSA’s State Plan, the agency will place counselors in all American Jobs Centers five days per week (currently counselors are placed in each American Jobs Center one day per week).
- Improve coordination of services to adults and youth provided by RSA and DOES. Revise current MOA with DOES to reflect broadened coordination of services by December 31, 2014. Establish an MOU with the DOES Youth Programs to establish a framework for coordination of services and sharing of resources to

achieve shared goals of improving employment outcomes for transition age youth.

- Establish relationships with all Public Charter Schools to ensure coordination of transition services to students with disabilities. Work with the Public Charter School Board and the DC Special Education Cooperative to develop mechanisms for coordination of referrals and provision of Pre-Employment Transition Services to students with disabilities in Public Charter Schools.
- Improve coordination of services with Job Placement and Supported Employment Provider Agencies. RSA will establish new agreements with all Job Placement and Supported Employment Providers that include performance incentives related to entry level wages and benefits; and assisting in moving people from SSI/SSDI to self-sufficiency. In addition, the agency’s electronic case management system will be modified to allow providers access to the system, improving efficiencies in referral and monitoring the progress of people referred.

Office of the Director

- Develop individual and family supports across the lifespan. Stand up Family Support Council (Age-Friendly DC Goal: Domain 8). The FY2015 Budget Support Act of 2014 created a Family Support Council to assist DDS and other agencies to develop systems of support for families throughout the lifespan of their

family members with intellectual and developmental disabilities. In FY2015, DDS shall publish operating procedures for the Family Support Council, and appoint the initial Family Support Council members.

Programs/Services

- **Development Disabilities Administration**
The Developmental Disabilities Administration (DDA) ensures that residents with intellectual and developmental disabilities receive the services and supports they need to lead self-determined and valued lives in the community. DDA achieves this through the delivery of outreach and service coordination services; the development and management of a provider network delivering community residential, day, vocational, employment and individual and family support services; and the operation of a comprehensive quality management program.
- **Rehabilitation Services Administration**
The Rehabilitation Services Administration (RSA) focuses on employment, ensuring that persons with disabilities achieve a greater quality of life by obtaining and sustaining employment, economic self-sufficiency and independence. RSA achieves this through employment marketing and placement services, vocational rehabilitation, inclusive business enterprises and supports for the D.C. Center for Independent Living.
- **Disability Determination Division**
The Disability Determination Division is the District office for the processing of eligibility for Social Security Disability Insurance claims.
- **State Office of Disability Administration**
The State Office of Disability Administration (SODA) supports the agency in policy and legislative affairs, program development, federal compliance, grant writing, stakeholder relations, and helping DDS to accelerate gains in performance and best practice.

First Quarter CY2015 Hot Button Issue(s)

- Implementation of amendments to the Home and Community Based Services Waiver for People with Intellectual and Developmental Disabilities (HCBS IDD waiver). This will require publication of 20+ regulations, timed around the anticipated approval date from the Centers for Medicare and Medicaid Services (CMS), so that we can implement new

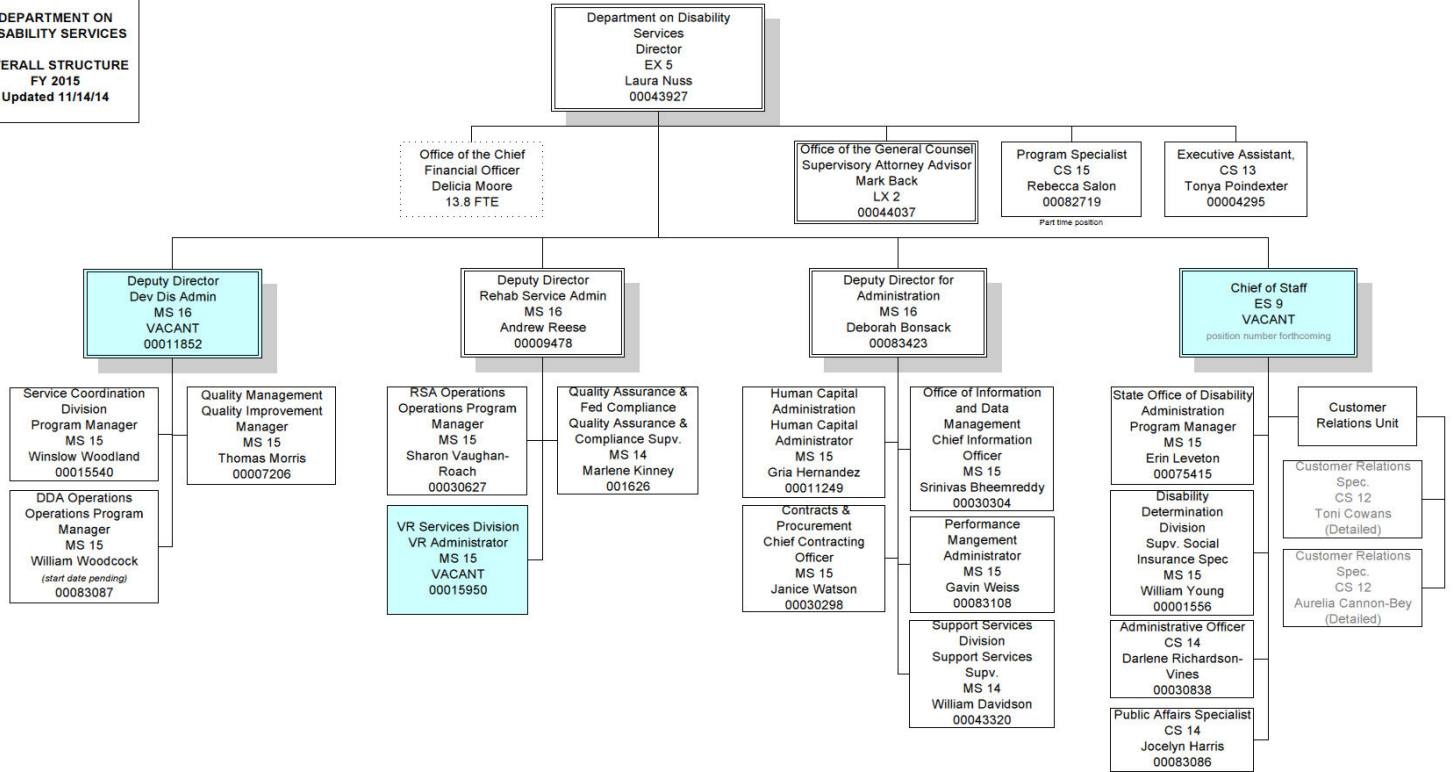

services, rates, provider qualifications, etc. This project will require ongoing interagency work with DHCF, ODAI, OPLA, and the DMHHHS.

- Transition Plan for the HCBS IDD waiver. Effective March 2014, CMS issued a rule that has a new outcome oriented definition of HCBS settings. The rule requires an assessment of all HCBS services and settings and a transition plan for any that are not in compliance, as well as for state level changes to regulations, provider certifications, policies and practices to ensure sustainability. DC will be in the assessment phase during the first quarter of CY2015. This project will require ongoing interagency work primarily with DHCF, but also DOH. Stakeholders are also involved.
- In the 2012 IDD HCBS waiver renewal the District added language permitting the use of a waiting list for DDA services. DDS will be publishing rules for comment to implement a waiting list, and may need to implement a waiting list for services if claims and expenditures were projected to exceed budget in FY 2015. The District has never had a waiting list for DDA services.
- In its FY 2015 State Plan, RSA established an Order of Selection for services. This would allow the administration to create a waiting list for services, if resources are insufficient to serve all applicants. In order to serve all eligible individuals in FY 2014, RSA sought and was granted an additional \$4 million dollars from the Department of Education. In the first quarter of FY 2015, and ongoing throughout the year, RSA will be monitoring its budget, referrals and planned expenditures in order to determine whether a waiting list for services is necessary.

Key Projects/Initiatives

Project/Initiative Name	Brief Description	Delivery Date
Supporting Parents who have IDD.	Multi-pronged projects and initiatives coordinated with CFSA to improve supports to people with IDD who have children who are or may become involved with CFSA.	September 2015 and on-going

Project/Initiative Name	Brief Description	Delivery Date
Workforce Innovation and Opportunity Act (WIOA) Implementation	In July 2014, the President signed WIOA, which made several important changes to the Rehabilitation Act. Most importantly, it requires all workforce agencies (including RSA) to have regular presence and coordinate more closely with the American Job Center (One Stop), and it established minimum levels of investment that must be made for Pre-Employment Transition Services for students with disabilities. This established that 15% of the federal grant and local match must be used to pay for services for transition students – while in secondary school. Both of these changes will require some shifting of RSA resources. RSA has already begun working with the Workforce Investment Council, DOES, OSSE and DCPS on necessary changes.	Beginning October 2014
RSA transitioning to fully electronic case records	During this fiscal year, RSA will transition all case files to a fully electronic case record, and will expand its case management system to include contract job placement and supported employment providers.	External providers – by 3/15; fully electronic files be 9/15
Person Centered Thinking	DDS is engaged in a multi-year “Person-Centered Thinking” (PCT) initiative to redesign the delivery of services available to persons with intellectual and developmental disabilities in a more progressive, best-practice approach that supports people with disabilities to have fuller lives in which they have real choices and self-direct the lives they lead. Person-Centered Thinking sees each person as central to designing customized opportunities for employment, education, recreation, and social activities. All supports are delivered in the community and reflect each person’s strengths, needs, interests and desires. DDS has trained seven staff as Person Centered Thinking trainers/coaches to support this effort, and has embarked on training four provider agencies to become Person Centered Organizations. In FY 2015, DDS will continue to expand the cadre of trainers within DDS and the community; will offer focused PCT training for people with intellectual and developmental disabilities and their families; will offer significant technical assistance to an additional four providers agencies to improve their PCT skills and practices; will provide in depth training and support for service coordination staff; and will train RSA staff in PCT. We also will continue to redesign our policies, procedures and practices, as needed.	On-going

Project/Initiative Name	Brief Description	Delivery Date
Employment & Most Integrated/ Least Restrictive Day	Continued work to develop the capacity of both DDA and provider personnel to offer increasingly integrated and individualized day, vocational and employment services to ensure that DDA funded services are tailored to people’s individually assessed needs and interests; result in achievement of personal outcomes; involve meaningful work and/or activities that teach or maintain important employment related skills; and, are consistent with the new CMS definition of community-based. This includes but is not limited to implementation of the HCBS IDD Waiver Transition Plan to ensure compliance with the CMS HCBS Settings Rule; ongoing training and technical assistance for agency and day habilitation and employment readiness provider staff; modification of HCBS IDD waiver rules, etc.	On-going
Supported Decision-Making	Support self-determination of people with disabilities through implementation of supported-decision, a spectrum of practices, relationships, and arrangements that facilitate people with developmental, cognitive, and psychiatric disabilities in making their own decisions. This will involve capacity building of DDS and provider staff as well as an assessment of DC statutes and regulations, and agency policies, procedures and practices. While DDS will lead this effort, it will require collaboration with DCOA, DBH, and other impacted agencies.	On-going
Employment First Initiatives	DDS and DOES are leading an initiative to promote employment for youth and adults with disabilities as the first and preferred option and use of public funds. A cross-agency, cross-disability leadership group has been meeting for 2 years and will continue to engage in joint capacity-building, leveraging of resources to support employment, and measurement of outcomes. Support for this initiative is available from the State Employment Leadership Network, in which DDS is a member. In addition, in FY 2014, DDS received a planning grant from ODEP to improve coordination of transition services provided by all agencies serving transition age youth. The project developed as a result of this grant is to develop an implementation plan, and pilot programs, for agencies to work together to ensure that all youth with disabilities have paid work experience prior to successfully exiting high school. DDS is working with OSSE and other agency partners on the Secondary Transition Community of Practice to implement this initiative.	On-going

Project/Initiative Name	Brief Description	Delivery Date
HCBS IDD Waiver Amendments and Transition Plan	DDS is in the process of amending the HCBS IDD waiver, with a projected submission date to CMS by 12/31/2014. DDS and DHCF will need to publish implementing regulations for many of the waiver services, timed with the projected approval of the amendments by CMS. This will require publication of 20+ new regulations. Additionally, effective March 2014, CMS issued the Home and Community Based Services (HCBS) Settings Rule, which contains a new outcome oriented definition of HCBS settings. When a state submits a waiver amendment, it is also now required to submit to CMS a transition plan with timelines and milestones for a comprehensive assessment of current compliance with the new rule and a plan for remediation. DDS will be working closely with the provider community, the people DDA supports and their families, to assess compliance with the new HCBS Settings Rule and to make changes, where required, to achieve compliance with the new CMS rule.	On-going
No Wrong Door	DDS received a grant from ACL for a 12 month planning project to identify the actions the state would need to take to successfully implement a No Wrong Door (NWD) Long Term Services and Supports (LTSS) system that cuts across all populations and all payers. DDS is partnering with DHCF, DCOA, OVA, DHS and DBH on this initiative. The planning process must also involve key external stakeholders including people with disabilities and their families and advocates, local coalitions and organizations that serve people with disabilities. We are required to produce a detailed 3-year plan the District would use, pending the availability of additional federal support, to begin transforming the multiple access programs and functions administered across its various LTSS programs into a single statewide NWD System of Access to LTSS for All Populations and All Payers.	On-going
Expiration of lease at DDS headquarters	DDS is currently in leased space at the 1125 15 th St. NW location. The current space is not conducive to DDS services and DDS must relocate to a facility and a location that is more accommodating to the population of people with disabilities. The lease is scheduled to expire within the next year and DDS is working with DGS to identify alternate space. No alternate space has been identified at this time.	Immediate and ongoing
